robbed. The bandits then started the engine down the track under full steam and leaped off, Posses from Greenville have gone in pursuit of the robbers. The value of the loot obtained was

molested by the robbers. There were conflicts in the reports of the killing of Conductor McRea. Posses of special deputies scouring the country for miles around Greenville arrested five men, suspected of having sems connection with the holdup. THE SUNDAY NEWS-TIMES IS the only Sunday no spaper published in northern Indiana—and the only newspaper available for local news between the Saturday afternoon papers and The News-Times Monday morning edition. To fill this gap, readers of evening papers need the Sunday morning edition. It is a long time from Saturday afternoon until Monday afternoon and many things happen every Saturday night. THE SUNDAY EDITION covers

the field-Saturday and Saturday night, in a local, state, national and international way, up to 2:30 o'clock Sunday morning. ASIDE FROM THIS LATE NEWS the Sunday Edition carries of them local, by members of The News-Times staff, and several by writers of national reputation,— Madison C. Peters, Edward K. Titus, Ada Patterson, Lucile Craine, Laura Ringston, Madge Arthur, Sidney Epsey, and others. Editorial, Woman's and Sport pages are especially attractive features. Large attention is given to religious, education\*1, political, financial, agricultural, automobile, and other special news of the week.

THE SUNDAY SPORT PAGE IS always an important feature. Saturday generally is a big day for sports, the games being finished too late for the evening papers to report. You cannot get the results of local or Southern Michigan league sport in any other morning newspaper circulating in South Bend and vicinity. Special attention is given to sports in the Sunday edition.

Official comment on the probable attitude of this government was withheld pending an opportunity to study the official text of the note. This was expected to be available late today. Answer Not Direct.

But the unofficial translation of the German reply was regarded as indicating clearly that Germany has not come forward with the direct answer expected, and there must be further diplomatic correspondence. It was believed not unlikely in official quase ters that the United States following wo evasive replies from the kalser's vernment, will now demand a cone response to former communica.

The entire subject it is expected will be considered by the president and his cabinet next Tuesday if the presilent's plans to return to Washngton by that date are not changed.
